THE OPEN CONSTRUCTION & BUILDING TECHNOLOGY JOURNAL

ISSN: 1874-8368

The Open Construction & Building Technology Journal is an Open Access journal that publishes original research articles, review/mini-review articles, short articles (letters), and guest-edited single topic issues on all areas of construction and building technology. It also includes articles on topics related to building and structural engineering as well as to building materials (mechanical and physical characteristics). The journal encourages submissions related to the following fields of construction and building technology:

- Cement, concrete reinforcement, bricks, and mortars
- Modeling of mechanical properties of structural materials
- New works and repair /maintenance of all civil engineering structures
- Soft computing techniques in structural engineering and materials
- Structural design, diagnostics, and health monitoring
- Additives
- Ceramics
- Corrosion technology
- Glass fibres
- Polymers
- Steel
- Timber
- Other related areas

The Open Construction & Building Technology Journal, being a peer-reviewed journal, is an important and reliable source of current information on important developments and research in the field. Emphasis is placed on publishing quality papers, making them freely available to researchers worldwide.
